and Caslav Bozic*
- Shanghai Stock Exchange Composite Index Forecasting Based  
on Microblogging.....16  
*Yibo Chen, Tao Yan, Andrew Lim, and Wenbin Zhu*

### Data Mining for Industrial Applications

- Using Data Mining Method to Predict Yarn Quality within Spinning Process.....31  
*Zhi Jun Lu, Qian Xiang, Jian Guo Yang, and Jun Gu*
- Applying Data Mining and Diffusion of Innovations to Build an Efficient Patent  
Strategy in RFID Industry.....39  
*Chwen-Tzeng Su and Chi-Hung Su*

### Theoretical Aspects of Data Mining

- MeMO : Membership-Based Minority Oversampling for Class Balancing.....44  
*Oscar Martinez, Ranga Dabarera, Kamal Premaratne, and Miroslav Kubat*
- An Easy Way to Build Flexible Search Engine by Using Crawlzilla.....57  
*Shun-Fa Yang and Yao-Tsung Wang*

### Data Mining for Intrusion Detection and Telecommunications

- Fuzzy Evolutionary Classification of TCP Packets for Network  
Intrusion Detection.....65  
*Terrence P. Fries*
- Recommending Relevant Applications for Users of SMS based Platforms.....73  
*Gopi Krishnan Nambiar and Samit Paul*

## **Multimedia Data Mining**
