

# Table of Contents

## Aspects of Data Mining

Building Classifiers to Identify Split Files <i>Pam Green, Peter C.R. Lane, Austen Rainer, Sven-Bodo Scholz</i> . . . . .	1
Data Mining Application in Goldbach Conjecture <i>Yanbo J. Wang</i> . . . . .	9
A Visualized Data Analysis Framework for Online-Shopping Products <i>Chung-Chian Hsu, Jing-Wei Lin, Chien-Hsin Chen</i> . . . . .	19
Visual Data Mining of Agriculture Data <i>Georg Ruß, Rudolf Kruse, Martin Schneider, Peter Wagner</i> . . . . .	30

## Data Mining on Multimedia Data

SVM Based Action Scene Detection <i>Liang-Hua Chen, Chih-Wen Su, Chi-Feng Weng, Hong-Yuan Liao</i> . . . . .	45
A Two-fold PCA-Approach for Inter-Individual Recognition of Emotions in Natural Walking <i>Michelle Karg, Robert Jenke, Kolja Kühnlenz, Martin Buss</i> . . . . .	51
A Semantic Framework for Mining Novel Knowledge from Multimedia Data <i>Sara Colantonio, Igor Gurevich, Ovidio Salvetti, Yulia Trusova</i> . . . . .	62
Some Improvements of the ILP System HYPER Used in the Context of Robotic Learning <i>Joona Laukkanen, Georgi Stojanov, Vesna Poprcova</i> . . . . .	68

## Theory

Robust Supervised Classifiers for Nondegenerate Generalized Gaussian Pattern Distributions with a Bounded Variance <i>Georgy Shevlyakov, Maya Shevlyakova, Vladimir Shin</i> . . . . .	74
How much Testing is Enough? A Learning Approach <i>Asem Eltaher, Markus Maurer, Thomas Form, Mohamed Ayeb</i> . . . . .	79

Performance Gain of Different Parallelization Approaches for Growing Neural Gas <i>Alexander Adam, Sebastian Leuoth, Wolfgang Benn</i> .....	94
The Best Combining of Classifiers with Prior Probabilities <i>Zhong-Liang Fu, Yu Yao, Xiang-Hui Zhao</i> .....	104
Approximation of the Parameters of a Readability Formula by Robust Regression <i>Tim vor der Brück</i> .....	115
Tree kernel and Feature Vector Methods for Formal Semantic Requests Classification <i>François Bouchet, Jean-Paul Sansonnet</i> .....	126
Towards SISI – a Self Adaptive Insert Strategy for the Intelligent Cluster Index (ICIX) <i>Sebastian Leuoth, Wolfgang Benn</i> .....	141
Optimization of the Weighting Exponent in the Fuzzy c-means Clustering <i>Liyun Chu, W.K. Wong, S.Y.S. Leung</i> .....	156

## **Distance and Similarity**

Clustering and Separating of a Set of Members in Terms of Mutual Distances and Proximities <i>Sergey D. Dvoenko</i> .....	161
--	-----

## **Oral Paper Late**

Particular Words Mining and Article Spotting in Old French Gazettes <i>Loris Eynard, Yann Leydier, Hubert Emptoz</i> .....	176
---	-----
