

Transactions on Mass-Data Analysis of Images and Signals

with Applications in Medicine, Biotechnology,
Chemistry and Food Industry

VOLUME 1 - NUMBER 2 - SEPTEMBER 2009

Editorial <i>P. Perner</i>	111
Flexible High-Content Image Analysis System for the Automatic Image Analysis and Interpretation of Cell Images – Computerized Methods in System Biology <i>P. Perner</i>	113
Fully Automatic Heart Beat Rate Determination in Digital Video Recordings of Rat Embryos <i>M. Khalid Khan, M.F. Nilsson, B.R. Danielsson and E. Bengtsson</i>	132
Automated Classification of Immunofluorescence Staining of HEp-2 Cells in Clinical Routine Diagnostics <i>C. Plata, H. Perner, S. Speth, K.J. Lackner and P. von Landenberg</i>	147
Health Monitoring by Image Acquisition and Analysis of Hazardous Biological Material in Air – A System for Airborne Fungi Identification <i>P. Perner</i>	160
Identification of Protein Biomarkers using Geostatistics and Block-Error Matching Strategy <i>T.D. Pham, D. Beck and M. Brandl</i>	178
Learning of Shape Models from Exemplars of Biological Objects in Images <i>P. Perner and S. Jänichen</i>	198
Device and Method for Acquisition and Automatic Data Processing in Virology <i>L. Ichim and R. Dobrescu</i>	210
Modeling the Immune Mechanism Diagnose <i>C. Ciufudean, O. Ciufudean, C. Filote</i>	224
